

ALEXANDRIA.

THURSDAY EVENING, SEPTEMBER 29.

THE DEMOCRACY of New York yesterday.

in convention assembled, declared : "That the unnecessary federal taxation of the last fiscal year exceeds \$100,000,000. Unnecessary taxation is unjust taxation. Therefore the democracy of New York demand that federal taxation be straightway reduced by a sum not less than \$100,000 000 a year. The taxes to be first reduced or altogether removed are those on imported raw materials, which now assist and promote foreign competition with ourselves in our own markets and prevent or hinder the sale of our own surplus products in foreign markets. Along with those taxes should be forthwith re mitted or reduced the taxation which increase the cost to our wage carners of the common ne cessaries of life, and the price of the common daily el thing of a" our people. Besides these there are several hundred articles among the 4,182 articles now taxed which should be swept off the tax list into the free list."

Tois has the true democratic ring. Virginia democrats when they go to the polls next November would walk with a firmer step and a higher head if they had such a plank in their platform.

A LARGE NUMBER of federal office holders in New York attended the late democratic convention of that State. What one of them, Mr. Creed, said with reference to his being there, expresses the general tenor of what they all said on the same subject. Mr. Creed said:

"I am here as the accredited repre entative of the democracy of my district. I was a member of the State committee b fore I was appointed Auditor in the Customs House at New York, and I am only carrying out the wishes of those who placed me on the committ e in remaining a member. I fail to see any stipulation in President Cleveland's civil-service letter relating to officeholders that can be construed into preventing me from fulfilling the duties expected of me by the democra s of my congressional district.

It is hoped after this that no citiz n of Virginia will, as some have, deem himself d nied the rights and privileges of citizenship became be happens to hold a federa

THE MASSACHUSETTS republicans, in their p'atform adopted yesterday, declare emphatically for a protective tariff, but, at the same time, favor the repeal of the duty on sugar. In other words, they would retain the tariff on such articles as are produced in the North, and remove it on such as are produced in the South. Protect the rich man ufacturers of one section of the country against the employers of the "pauper" labor the peon labor of Mexico and the slave labor of the West Indies. The duty on sugar should be removed, for the good and sufficient reason that while the producers of sugar are few, the consumers are many; but for a like reason the duty should also be removed from those necessaries of life pro duced in the North.

THE ADMINISTRATION men in the New York democratic convention had prep resolution endorsing not only the civil ser vice law, but the more of jectionable civil service rules, as well; but the utmost con cession the anti administration men would consent to, in order to avoid an open break, and to induce Mr. Dorsheimer, the administration leader, to perform his duty of presenting the platform, was the following:

"The democracy of New York reiterate their support of the civil rervice laws of the United States and of the State of New York, and their purpose to uphold them both. In view of the Judge Key, at that time Postmaster Generadical chance in the administrative methods ral, was at the head of the proposed moveradical change in the administrative methods which grow out of the civil service laws, and the differences of opinion which exist in relation thereto, we deem this subject one which might properly be submitted to the popular vote"

In Boston, yesterday, Rev. W. F. Davis was tried in the superior criminal court for "preaching on the common without a license." The jury after being out two held at the White House to-day at the usual takes—and pray, what mortal has not made hours returned a verdict of guilty. More hour. There were present Secretaries Baybours returned a verdict of guilty. More ard, Fairchild, Whitney, Endicott and Labybours. And I think every Southern than a hundred years ago three Baptist preachers were tried in Virginia for "preaching the Gospel contrary to law." Patrick Henry was their counsel. When the indictment was read, he rose and said: "May it please your worships, what did I hear read? Did I hear it distinctly, or was it a mistake of my own? Did I hear an expression that these men, whom your worships are about to try for a mi-demeanor, are charged with preaching the Gospel of the Son of God?" The preachers were discharged. The progress of this country is in many respects back ward.

THE COLLECTOR OF CUSTOMS at New York is evidently a respecter of persons, makes flesh and fowl of the same material, and does not believe that what is sauce for the goose is sauce for the gander. He refuses to allow skilled wine and silk makers from Europe, whose services have been engaged in this country, to land, under the law prohibiting the importation of contract labor; but he has just permitted an English preacher to land, though he came under a II, by that veteran and able journalist, Captain contract to take charge of a church in this Thomas Whitehead, whose eloquence has frecountry. Some preschers may not be la- quently thrilled an Alexandria audience, if we borers, but they all say they are, and every conscientious one must be.

THE PACIFIC railroad comm's ion, each of whose members draws nine thousand dollars a year and has his traveling expenses paid, has resumed its sessions. It was created to investigate the affairs, the books and accounts, of the Pacific railroads.

As Justice Field, of the U. S. Supreme Court from the Boston decision in the telephone case.

Court, has recently decided that the commission can not compel the railroad companie to produce such books and accounts, many people think, and not unnaturally, that as the object of the commission can not be attained, it had better be abolished, and that as soon as possible.

A MOVEMENT is on foot in New York to have established in the public schools of cago resulted favorably with the exception that State a course of manual training. Such a movement is wise, and should be extended to other States, and should succeed in all. Experience proves that free schools are conducive neither to the morality nor the religion of the people; they should at least be made to afford their pupils the means of earning an honest living, the more especially now, as the old apprentice system has been almost abolished.

THE WASHINGTON Republican says it General Mahoue were re elected to the U. S. Senate, "in the State of Virginia his influence would be for an honcet, sensible set tlement of the State debt, which would re. store her credit and place Virginia upon the high road to prosperity." If the Republican knew what it was talking about it, would know that save only and except for General Mahone's "malign influence," repudiation \$15,000. never would have been possible in Virginia.

THE REPORT started by the New York Herald that Mr. Gould will reduce the rates of cable dispatches for the purpose of so crippling the rival line in which Mr. Bennett is interested as to enable him to purchase it, and then to recoup by advancing the rates to extortionate figures, somehow or other suggests the idea that the report referred to was conceived as a means of attracting pat-

He is making arrange-ments for moving to a far western Territory, and by strict attention to his profession law-strive to regain there the reputation he has lost in his native State.

The President in his inaugural address id: "These who are selected for a limited time to manage public affairs are still of the people, and may do much by their example to encourage, consistently with the dignity of their cilicul functions, that plain way of life, which among their fellow citizens aids integrity and premotes thrift and economy." Of the magnificence and luxuriousness the special train on which the President is to make his proposed trip, the half has not been told. The entire train seems to be composed of gold, silver, crystal, gilt, velvet. lik and satur. It more than realizes all the

torgeousness of Aladdin's palace. A private letter received here to day from Representative George Wise, of Richmond, says the Statement recently made in a purported dispatch from that city to the Re-publican, of this city, to the effect that the of Europe, but force the poor planters of democratic party there has gone to smash the South to compete with the employers of and tout he will not be re elected to Con gress, has even less foundation than a vision; that the party there is in good condition and outhusiastic, and that if he shall not be re elected he will be very much disappoint ed. It is said here that Mr. Wise netted about forty thousand dollars by the recent real estate boom in California.

The last meeting of the Cabinet prior to the President's departure for the West was ard, Fairchild, Whitney, Endicott and Lamar, and Acting Postmaster General Stevenson. Acting Attorney General Jenks had an interview with the President before the The theatrical season promises to be one meeting, but did not remain during the session. The meeting is regarded as an im-portant one, as it is believed that the policy to be adopted by the Treasury Department with regard to the surplus up to the time of the assembling of Congress will be determined. It is also understood that the Cana dian fisheries, the Alaska seal fisheries, and the Indian troubles in Arizona were considered.

Secretary Fairchild returned to Washington last evening and resumed active control of the Treasury Department this morning.

The offerings of bonds of the Government are daily growing less, but Treasury officials appear confident that the \$14,000,000 called for to meet the purposes of the sinking fund will be secured within the prescribed limit.
